

ASTAVA STATEMENT ON PED 2014/68/EU

As per 29th of Mai 2002 it is stated by law that all manufacturers of Pressurized products have to comply to guideline 2014/68/EU Pressure Equipment Directive. This compliance might lead to CE-marking on products, which according to the guidelines are within the scope of PED.

ASTAVA, as a manufacturer, engineer and assembler of pressurized products up to 690 barg (10.000 psi), falls under the PED. Lloyds Register/Stoomwezen made an impact analysis on all our products resulting in the following conclusion on the products groups which fall under the PED:

Productgroup	Type	Categorie Acc. PED
Instrument valves/ manifolds	pressurised assembly	SEP
Interlocking solutions	Safeguarding assembly	IV
Seal/drainpot	Pressure vessel (PS \leq 200 barg)	SEP
	Pressure vessel (PS > 200 barg)	III
Slimline monoflanges (CC)	pressurised assembly (DN \leq 25)	SEP

SEP: Sound Engineering Practice
 DN: Nominal diameter of bore internal
 PS: Maximum allowable pressure
 V: Internal volume

For products under category "Sound Engineering " no CE-marking can be gained.

For the product ranges interlocking manifolds and sealpots, which require certification according to PED 2014/68/EU, ASTAVA gained the CE-marking. For information we invite you to visit:
